SMARTER WELDING NEWSLETTER

FEBRUARY - MARCH 2011

Plus Concept

High Productivity Solution

++ Increased Welding Speed ++ Control of the Deposit

++ Arc stability and control ++ Higher Penetration

++ Quality of the Deposit

= Lower Welding Costs with Higher Quality.

AVAILABLE IN 250AMP (240V) & 400AMP (415V) VARIANTS

Powerful Industrial Quality Multifunction **Pulse** Welding Machines with high duty cycle ideal for aluminium and stainless steel welding applications; from very low current up to heavy industrial thickness.

- High Speed MIG/MAG with Synergic Programs.
- High efficiency with **High Speed Pulse**
- Easy to use Double Pulse function in any program.
- Complete TIG cycle (DC) and Stick mode for professional applications.
- Full 2 Year Warranty for peace of mind.
- Local service and spare parts backup.
- Easy upgrade for push pull applications.

Experience the simpler and faster way to improve your welding...

WELDING

FUSION S6 Mild Steel Welding Wire

- ✓ Solid S6 grade, precision layer wound copper coated low carbon steel mig wire.
- ✓ Suitable for positional mig welding of mild steel & low alloy steels.
- ✓ Low spatter with good edge wetting and weld shape.

NEW!

TIG Brush® TBX-300

Lightning Fast Stainless Steel Weld Cleaning!

Enhanced power technology equips the TBX-300 to drive larger brushes for even greater productivity.

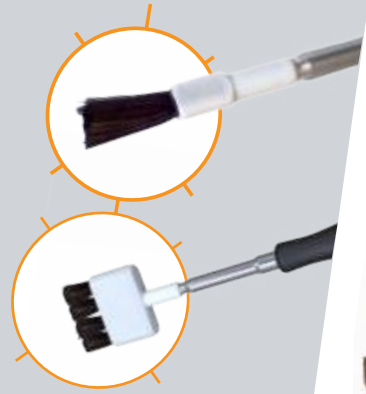

Now with patented Dynamic Power Transfer!

	TBX-300
Patented Dynamic Power Transfer	✓
240V single phase power	✓
Weld cleaning & passivation	✓
Surface restoration option	✓
100% duty cycle	✓
12 month warranty	✓
Optimised for larger brushes	4X
Power output/speed	Enhanced
Maximum reach with extension cables	12m

- one-step cleaning & passivation
- no more pickling paste
- water-based clean-up
- low running costs
- portable & tough
- enhanced power
- simple, variable control
- 100% duty cycle

SEE IT IN ACTION. TALK TO US NOW!

EHOMA

Quick Action Lever Clamp

Ratchet type lever prevents overloading & resists vibration. For high pressure, fast action clamping purposes.

- Heat treated forged steel for maximum durability
- Nickel & chrome plating for corrosion resistance.
- Suitable for a diverse range of applications.

Part No.	Span x Depth	Clamping Force	Ex GST	Inc GST
TLE-G16L	160 x 80mm	230KG Pressure	\$65.00	\$71.50
TLE-G20L	200 x 100mm	350KG Pressure	\$70.00	\$77.00
TLE-G30L	300 x 140mm	500KG Pressure	\$100.00	\$110.00
TLE-G40L	400 x 120mm	550KG Pressure	\$106.00	\$116.60
TLE-G50L	500 x 120mm	550KG Pressure	\$112.00	\$123.20
